Azure Compute and Azure Data are actively looking for Software Engineers in Redmond, WA and Atlanta, GA

Are you passionate about cloud computing? Are you motivated to find ways to improve systems and processes?

Microsoft Azure is an ever-expanding set of cloud services to help your organization meet your business challenges. It's the freedom to build, manage, and deploy applications on a massive, global network using your favorite tools and frameworks. To delight customers in a Cloud First world, Microsoft delivers highly available online services with cutting edge features and innovative functionality lighting up on a regular basis. We are seeking candidates at all levels who love to engineer solutions from concept to production. Join us and make a difference to millions of people across the planet building one of the largest distributed systems on the planet: the Microsoft Azure team.

If you are interested in learning more about Azure, feel free to check out our landing page here: https://azure.microsoft.com/en-us/overview/.

Basic Qualifications:

- 5+ years of experience with one or more general purpose programming languages including but not limited to: Java, C/C++, C#, Python, JavaScript, PowerShell
- BSc in Computer Science or related technical field experience
- Open to working in Seattle, WA or Atlanta, GA

Preferred Qualifications:

- Proven track record of design and technical accomplishment
- 5+ years of experience implementing and/or operating large scale software services, components, or feature areas
- Knowledge of Microsoft Azure, AWS or similar cloud computing platforms is preferred
- Effective collaborator, experienced in creating technical partnerships across teams
- Strong problem-solving skills

Ability to meet Microsoft, customer and/or government security screening requirements are required for this role. These requirements include, but are not limited to the following specialized security screenings:

- Microsoft Cloud Background Check: This position will be required to pass the Microsoft Cloud background check upon hire/transfer and every two years thereafter.

By applying to this position, you are being considered for multiple like positions within our organization. Microsoft is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to age, ancestry, color, family or medical care leave, gender identity or expression, genetic information, marital status, medical condition, national origin, physical or mental disability, political affiliation, protected veteran status, race, religion, sex (including pregnancy), sexual orientation, or any other characteristic protected by applicable laws, regulations and ordinances. We also consider qualified applicants regardless of criminal histories, consistent with legal requirements. If you need assistance and/or a reasonable accommodation due to a disability during the application or the recruiting process, please send a request via the [Accommodation request form](#).

Benefits/perks listed below may vary depending on the nature of your employment with Microsoft and the country where you work.
