

# FUN FACTS

**FUN FACT**

CF's Inclusion Resource Group (IRG) focuses on **connection, culture, community, and career** to encourage employees to get involved and create a workplace where we all feel included.

**FUN FACT**

**CF reuses water 29x times** in our operations, returning **75%** of our withdrawals back to their original source.

**FUN FACT**

CF is committed to blue ammonia production, with plans to install CO<sub>2</sub> dehydration and compression equipment to produce ~2M tons of blue ammonia annually, while **preventing up to 2.5M tons** of carbon emissions.

**FUN FACT**

Fertilizer **increases crop yields** per acre and reduces land needed to grow food. Without it, the resulting deforestation would cause an increase of nearly 5 gigatons of carbon dioxide emissions.

**FUN FACT**

CF has reached its goal to increase representation of females & persons of color into senior leadership roles to at **least 30%** four years early!

**FUN FACT**

CF is the world's largest producer of diesel exhaust fluid (DEF), which is used by diesel truck fleets to **reduce NOx emissions by up to 95%**.

At CF Industries, our mission is to provide **clean energy** to feed and fuel the world sustainably.
